### Notes

**Notes:** This tip or complaint was received from Region 6 after they received a PCB One-Year Exception Report. The report was received from Onyx in TX and was forwarded to EPA region 9. The Facility in question Southern California Gas and Electric appears to have been incorrectly identified. The manifests cited in the report is for 98206452 which belongs to SCGC and not SCE. The Out of Service date included in the document is 9/9/99. The date transported for disposal is 5/9/00. The date received by Onyx in TX is 6/19/00. Which is past the 9 month storage date. But the facility shipped the PCB waste off prior to the 9 months and the waste wasn't disposed of until 9/13/00. There is no violation here, so I will close out the file in TED.

**Status:** ☐ Open ☒ Closed
